

Yeovil Town Road Running Club

Club Roles

It is my thinking that we should rename some positions within the Club structure and look at the feasibility of creating a new position.

The two positions to be renamed are the Men's and Ladies Team Captains. I have been the Men's team Captain for 2 years and realistically don't feel there is a need for anyone to organise teams for events. As we have seen in the past where there have been specific teams required members of the Club have sorted this between themselves.

My proposal is to rename these positions to just the Men's and Ladies Club Captains, their roles and responsibilities are simple and detailed below:

1. They are the first point of contact on the Tuesday Night runs.
2. Anyone that enquires about joining the Club via any means should be directed to them so they can give them all the correct information about dates, times and rules.
3. They can introduce those new members to specific run leaders depending on their experience and requirements. This will free up Phil's time so runs can start promptly at 18:30.
4. They can be used as an extra Welfare Point of Contact. Thinking more towards the male elements of the Club where they might not feel comfortable speaking to Lynne as the Club Welfare Rep.

My second proposal, would be to create a new position of Event Co-Ordinator. This position would sit above the Race Directors. They would be responsible for co-ordinating all the Clubs Races with regards to Race Licences (reduces the workload from the Club Secretary), Entries, Sponsorships, Risk Assessments, Event/Race PR. This would allow the Race Directors to purely concentrate on the Race and the course measurement and marshals/helpers. This also may help in regards to race t-shirts and medals and gaining a better deal with companies.
